

Mastering the Full-Arch workflow

Presented by Jeremy Wohlers, CDT and Matt Cushing
Hosted by BioHorizons, First Choice Dental Lab and
Vulcan Custom Dental

Thursday, November 12, 2026 • 2 CE credit hours

Course description

The demand for the full-arch dental implant treatment has grown exponentially, and there have been many advancements in the surgical and restorative workflows. These advancements allow clinicians to provide the full-arch dental implant treatment with better predictability and efficiency, which allows for greater clinical success and better patient experience. Our speakers will explore digital dentistry with the use of guided surgery and photogrammetry restorative workflows. This course will cover implant design, and the advantages surgically and prosthetically for the full-arch dental implant workflow.

Learning objectives

- Provide an overview of the full-arch dental implant treatment
- Review the surgical workflows: Guided vs Freehand
- Discuss implant and prosthetic design advantages for full-arch
- Explore the use of digital technology in the full-arch prosthetic workflow

Jeremy Wohlers, CDT

Jeremy Wohlers, CDT, has been in the dental industry for more than 20 years. He has worked in both the clinical and laboratory sides. In 2013, he and his wife started a removable laboratory in Yakima, Washington, that focuses on implants and immediate-loading full-arch rehabilitation. Mr. Wohlers has traveled multiple times to Germany to learn and bring new technology back to implement in the USA. Since selling his lab, Jeremy has worked for industry leaders in the dental industry. He now works for Vulcan Custom Dental where he utilizes his knowledge in the industry with colleagues and customers.

Matt Cushing

After a six-year NFL career as a tight end and fullback with the Pittsburgh Steelers, Matt Cushing transitioned into the dental lab industry, eventually founding First Choice Dental Lab in 2008. Under his leadership, the lab has grown into a full-service operation offering crowns and bridges, implants, removables, surgical guides, and full-arch work including photogrammetry. Leveraging his athletic background, Matt has fostered a team-oriented culture focused on quality, reliability, and exceptional service. A South Side Chicago native, he serves on the Board of Directors at Mt. Carmel High School and is a former president of the Downers Grove Park District Board of Commissioners. He and his wife of 26 years, Angie, have three children—Luke, Ella and Claire—and in his free time, Matt enjoys coaching youth sports, mountain biking and woodworking.

Schedule

November 12, 2026
Check-in 6:00pm–6:30pm
Program 6:30pm–8:00pm
Cocktail reception and dinner provided

Location

Maggiano's Little
240 Oakbrook Center
Oak Brook, Illinois 60523

Tuition-free

Registration
